So it was thought about the layout of the panic team and roles like no other! There will be a return year after year if they keep a great job!!!! Scare Factor: Fun Factor: Haunt Value: Posted Nov. Was this review useful? YES NO Unbelievable! Great actors, amazing scary experience! Absolutely frightening and fun, and we will definitely go again. Panic Factor: Fun Factor: Haunt Value: published in November 2018 Has this review been helpful? YES NO 1 out of 1 find this review useful from the zombie experience hell you will find nowhere. I took my teenagers and they really liked it. Zombus was a unique vehicle filled with equipment used to slay zombies. It was a total fun. Panic Factor: Fun Factor: Haunt Value: published october 2018 Has this review been helpful? YES NO 1 out of 2 found this review useful my husband and I traveled 4 hours to come to check out this event, because if you can still shoot zombies from a cool and comfy bus? ... And it was totally worth it. Super fun, we had a lot of laughs and made some cool memories. As for the scare factor- bus ride is certainly not scary zombies are prevalent (many shoot), but kind of cartoonish costumes. But they jumped us a few times with a good time start. It would just be good for most of the kids, and there were some buses we were on- it seemed like they were having a blast. Some cool effects throughout the trip really puts this ride in the league on its own. That's what you have to see. The haunted trail was way better than I expected. May be the main attraction of all this on its own. This one was terrible. The actors were phenomenal! Completely left in character and frightened pants away from us over and over again. The props and layout were really impressive- I mean, as a professional film set in quality, not some fake looking gore here and there, as I kind of expected because the trail is not as strongly advertised as the bus. There was also a long attraction; there were a couple of times I thought we made it to the end, just turn the corner and have to get into another haunted zone! My advice is to really buy the Sargent package. Getting by bus is probably about 20 minutes long, for an extra couple of dollars you can really make a night out of it and do other entertainment. In addition, we have purchased a quick past, and if possible, I really recommend to you as well. I can't tell you how long the actual wait is in the lines (because we didn't wait for them), but they seemed long. With a quick past we walked right in and stayed out of the cold and were also able to fit over into our night in this way. Totally worth it. Oh, and the staff was absolutely phenomenal! Seriously, they all did a fantastic job. Really friendly and delivered exceptional customer service. They really are a big part of why I bet that next year (this time with friends dragging lol) Scare Factor: Fun Factor: Haunt Value: Time Visited: 5PM - 9PM we recommend: Yes suitable for kids: Not sure posted October 2018 Has this review been helpful? YES NO 1 out of 1 found that this review useful for riding zombus to kill zombies was a kind of a world experience and we were too excited about it Went there quite early and and less than an hour. Got into the zombus, uniquely designed vehicle loaded with equipment. It was a great feeling to fight zombies shooting from the vehicle. If you don't hit them, they'll try to get on the vehicle. A great way to vet your Halloween spirit. Panic Factor: Fun Factor: Haunt Value: published october 2018 Has this review been helpful? YES NO SO much fun, but also freaky lol. The best zombie attraction to visit the spirit of Halloween. Loved to shoot the undead out of the zombus. Panic Factor: Fun Factor: Haunt Value: published october 2018 Has this review been helpful? YES NO 1 out of 1 found this review useful for my family and I had a great time. It was coming out as we climbed into the vehicle and found our equipment. Felt like being in a zombie movie and playing the role of survivor who beats all the strange winning zombies. Panic Factor: Fun Factor: Haunt Value: published october 2018 Has this review been helpful? YES NO Gotta say, had a great time. It was like part of a military operation. Zombies chasing us were pretty determined. The actors were looking exactly like zombies. It was a great makeover that made them look very similar to a real zombie. Panic Factor: Fun Factor: Haunt Value: published october 2018 Has this review been helpful? YES NO 1 out of 1 found this review useful in a wonderfully unique haunt that's something for everyone. I could find my sons in an explosion shooting zombies. The actors did the feat like zombies. It was a great spectacle and it seemed very authentic that you forgot, they were a real man. Panic Factor: Fun Factor: Haunt Value: published october 2018 Has this review been helpful? YES NO LOVED THE EXPERIENCE. It was fun, scaramongering and adventure. I have learned to use the paintball gun that made my day. Have fun with zombies and with the group I will share the zombus as well. A great way to find new friends. As a team, it was a new experience trying to create a strategy that contains zombies. Their shooting made me feel like a hero. The actors were great. Wonderful. Love to come back. Panic Factor: Fun Factor: Haunt Value: published october 2018 Has this review been helpful? YES NO 1 out of 1 found this review useful This was our first visit to zombus and it was amazing to say the least. We had to wait a little in line, but when we entered persecution, it was fun. It was scary than the typical haunted woods. My daughter was very scared. The areas were quite creative, using the available space. I recommend you do not go low impact weapons. The staff were also friendly and knowledgeable. I will bring my friends and extended family the next round of Zombus soon. Panic Factor: Fun Factor: Haunt Value: published in November 2017 Has this review been helpful? YES NO 1 out of 1 found this review useful we planned to visit Zombus to celebrate Halloween. We a group of six, and had a wonderful time shooting paintball in the forest. Getting on the bus was fun. You can always upgrade to extra ammo and playing time. I would advise that you get you mask in advance. But for the tickets and then for the ride we had to wait 1.5 hours, which was too much. I recommend it anyway. Panic Factor: Fun Factor: Haunt Value: published in November 2017 Has this review been helpful? YES NO It's really a great place to have a lot of time... The staff were very friendly and friendly... excellent prices and quite a lot of choices. It was an exhilarating experience of airsofting with paintball... shooting targets as they approach. Ref was assigned to every group and he was super smart and patient... especially with the old man... The haunted hiking trail was pretty scary... The maze was too hard to get through... will have to plan for extra money for extra bullets, food and drinks... fun you can have here is superlative and I highly recommend this place.
